The image shows a screenshot of a software dialog box titled "Filter TL1Event". The dialog box is divided into two main sections. The top section, labeled "Find NE ID", contains a dropdown menu set to "Starts With", a text input field labeled "Value", and a checked checkbox labeled "Case Sensitive". The bottom section, labeled "Event Types", contains six checkboxes arranged in two columns: "Unparsed", "Received Raw", "Response" in the left column, and "Send Raw", "Command", "Acknowledgement" in the right column. All six checkboxes are checked. At the bottom of the dialog box are five buttons: "OK", "Cancel", "Select All", "Clear All", and "Help". Handwritten annotations include a squiggly arrow labeled "60" pointing to the top of the dialog box, a line labeled "64" pointing to the "Case Sensitive" checkbox, and a line labeled "62" pointing to the "Acknowledgement" checkbox.
